RABBIT SURGICAL APPOINTMENT
At Rickmansworth Surgery

Animals Name:.....

Admittance Date:.....

Time:.....

Procedure:.....

Please remember:

- 1). It is not necessary to withhold food or water from rabbits prior to sedation or anaesthetic. It is preferable to encourage your rabbit to eat as this may help to stimulate their appetite in the post-operative period.
- 2). Please bring a picnic of your rabbits favourite foods to tempt him/her with for after their operation.
- 3). If there has been any change in condition or symptoms since the surgical appointment was made, please tell the admitting nurse.
- 4). Please be prepared that the admission appointment may take some time, as the nurse will need you to go through a Consent form with you. Punctuality in the morning helps us to get your pet home with you as soon as possible.
- 5). Please be aware that you will be expected to pay in full when you collect your animal. Written estimates are available on request.
- 6). If you wish your rabbit can be Identichipped while under anaesthetic, at a reduced price, and your pet is registered for Life.

PLEASE DON'T HESITATE TO ASK IF YOU HAVE ANY QUESTIONS. THANK YOU FOR TAKING YOUR TIME TO READ THESE IMPORTANT POINTS.
